» EMPLOYMENT

Full-Stack Developer
KELLETT COMMUNICATIONS INC

OCTOBER 2016 – PRESENT

Responsible for determining and planning architecture, layout, scoping projects, estimating hours, checking estimates and specifications. Other duties include technical leadership and accountability with clients. Code reviews, beta testing and final product delivery. Support and communication with directors towards technical solutions to maintain creative process and vision while managing client relationships.

Web Developer
OUTCROP COMMUNICATIONS LTD

JUNE 2015 – SEPTEMBER 2016

Originally signed to task for front-end development of theming and functionality; expanding needs lead to cover any and all areas that required immediate action or to close up the divide. Responsibilities range from troubleshooting both local and remote server environments to hotfix compatibility issues. Auditing existing deployments for security & maintenance. Heading a number of projects, working closely with our design team-members. Handled the design process for an expansion to one of the larger clients site portfolio (WSCC). Other duties include detailing technical documentation, site planning/wireframing, best-practice & process standards innovation and new-hires support.

Development & Deployment
CONSULTING SUCCESS

OCTOBER 2015 – JULY 2015

Worked with Sam Zipursky in the development and product launch of new and existing client websites. Primarily responsible for the creation of mobile re-builds and custom WordPress themes & functionalities. Notable clients: Howard Bryant, Marcus Schwarzer, Scott Yankton.

Senior Technical Support Consultant
ROGERS WIRELESS COMMUNICATIONS / CABLE INC.

JUNE 2006 – NOVEMBER 2012

Wireless ICC for billing & technical support. Transferred to Hi-Speed support following graduation from NBCC Networking & Administration. Advanced my role in all lines of business: Small & Medium Business support, iPhone, Blackberry, Android, PDA, Tablet, Mobile Internet, Rogers One Number, Technical Live Chat Support, Cable Hi-Speed & Portable internet (WiMAX).
